Who is Spatial Plants?

Spatial Plants, a psytrance electronic musician, emerged from a very musical landscape as a dynamic force in the psytrance scene. From the beginning, his magnetic vitality pushed him out from his homeland, propelling his project into the limelight at major national and international festivals, with a performance leaving indelible marks on dancefloors. As his skills and production evolved, Spatial Plants ventured into a deeper psychedelic sphere, drawing inspiration from the sacred soundscapes of Goa and the UK twilight psychedelic direction. Now part of the Blacklite Records crew, as an icon in the psytrance world, Spatial Plants has been a beacon of energy and innovation on dancefloors worldwide.
